SUSTAIN TERRA GREEN VENTURES

**EXECUTIVE
LEADERSHIP**

Vinit Gosalia

Masters in Climate Finance and Sustainability –
IIT Kanpur

Co Founder- Chief Executive Officer

GRI, BRSR, CSR Certified Professional

Extensive Experience – 15+ years in sustainability, social impact, and corporate responsibility with roles at JP Morgan, Teach For India, and Indeed.

Academic Excellence – Master's in Climate Finance & Sustainability (IIT Kanpur) plus certifications in GRI, BRSR, and CSR.

Education & Community Impact – At Teach For India, led transformative projects driving educational equity and community empowerment.

Corporate Strategy – At JP Morgan and Indeed, managed strategic, high-impact projects aligning business goals with sustainability practices.

Innovation in Sustainability – At Fitsol, developed a carbon accounting platform helping businesses measure, report, and cut environmental footprints.

Trupti Sawant

- Masters (Geography, Geo-informatics) –
Mumbai University

- Masters (Climate Finance and Sustainability) –
IIT Kanpur

Co founder, COO

Diverse Expertise – Over a decade in Project Management, Product Development, and Technical Solutions with PMP, Prince2, Agile, and Six Sigma certifications.

Strong Academic Foundation – Master’s in Geography (Mumbai University) and Master’s in Climate Finance & Sustainability (IIT Kanpur).

Market Leadership – Played a key role in building India’s mapping infrastructure and scaling operations at Nokia (Location & Commerce).

Global Product Innovation – Led development of advanced locational intelligence products, including India-specific solutions later adopted internationally by NAVTEQ.

Future-Ready Projects – Contributed to next-gen initiatives like HD maps for autonomous driving, collaborating with global automakers such as Mercedes, BMW, Audi, and Tata Motors.

Dr Sameeksha SP

PhD LCA, ISO 14064, 14046 certified
Masters in Climate Finance and Sustainability –
IIT Kanpur

Co Founder- Chief Sustainability Officer

Leadership & Expertise

Dr. Sameeksha S.P., Chief Sustainability Officer at Sustain Terra Green Ventures LLP, brings over a decade of experience in sustainability, climate strategy, and energy transition—translating complex challenges into actionable solutions.

Strategic Initiatives

She leads net-zero pathways, decarbonization roadmaps, and ESG frameworks, positioning sustainability as a driver of innovation and competitive advantage. She aligns organizations with SBTi, CBAM, and disclosure standards like TCFD, BRSR, CSRD, GRI, and IIRC.

Technical Mastery

A recognized expert in CCUS, GHG accounting, and climate risk management, she has delivered Life Cycle Assessments (LCA) across industries such as steel, cement, pharmaceuticals, renewable energy, and consumer goods using tools like GaBi and SimaPro.

Academic & Professional Credentials

Holds a Master’s in Sustainability & Climate Finance (IIT Kanpur), pursuing M.Sc. in Energy Policy & Climate (Johns Hopkins) and Ph.D. in Mathematics (Amrita Vishwa Vidyapeetham). Certified in climate reporting, ISO standards, and sustainability assurance, with expertise in Power BI, Python, and Tableau.

Global Impact

Her collaborations with Fortune 500 companies, governments, and NGOs have driven significant advancements in environmental performance, climate resilience, and sustainability leadership.

Team Sustain Terra

- **60+ years** of combined experience in **climate science, ESG, sustainability, and climate finance.**

- Led by **PhDs, IIT alumni, and sectoral experts in green finance and low-carbon strategy.**

- We work with **industry leaders, multilateral institutions, and mission-driven enterprises** to design and deliver science-aligned sustainability solutions.

- Expertise includes:
**Life Cycle Assessment (LCA) · ESG reporting · Taxonomy compliance
Science-Based Targets (SBTi) · GHG accounting · Transition pathways**

- We bridge **technical depth** with **strategic vision** to accelerate the **climate-aligned transformation** of industry.
